

Orbis UHS 1500 - Ultra High Speed 20" Single Disc Rotary Machine

The Orbis UHS 1500 20" is an ultra high speed single disc rotary machine designed for spray buffing and burnishing. Operating at only 56 decibels, the machine can be fitted into normal working patterns without causing disruption.

It is a lightweight, easy to use, ergonomic machine with low level vibrations offering optimum operator comfort. It has a powerful motor system and its high 1500rpm speed cleans and polishes hard floors resulting in maximum gloss and shine.

The Orbis UHS 1500 20" is supplied with a 20" drive disc and is suitable for a range of applications including cleaning hospitals, shopping centres, supermarkets and airport concourses.
